AUSTIN ENERGY

A MODEL FOR SUCCESS

Austin Energy began its Green Building Program over 15 years ago and has become one of the most successful programs in the country in reducing energy use for new and existing buildings by focusing on the benefits of green building: better health, greater comfort, lower utility bills, less maintenance, and lasting value.

Presentation details:

- **Thursday, March 25th**, 6:00 – 7:30 PM
- **Meadow Park** - 2333 Meadow Street, San Luis Obispo (near the big park on South Street)
- Presentation by **Richard Morgan**, Austin Energy Green Building Program manager

Snacks and beverages will be provided; beer and wine will be available at \$2 per glass. Suggested \$5 donation at the door.
